LEGISLATIVE UPDATE

2023 General Legislative Session

Issue #3

February 5, 2023

Welcome to the 2023 Legislative Update

This issue includes highlights of week three, what we can expect in the week ahead, and information for protecting wildlife and the environment. Please direct any questions or comments to Steve Erickson: erickson.steve1@comcast.net.

About the Legislative Update

The Legislative Update is made possible by the **Utah Audubon** Council and contributing organizations. Each Update provides bill and budget item descriptions and status updates throughout the Session, as well as important Session dates and key committees. For the most up-to-date information and the names and contact information for all legislators, check the Legislature's website at www.le.utah.gov. The Legislative Update focuses on legislative information pertaining to wildlife, sensitive and invasive species, public lands, state parks, SITLA land management, energy development, renewable energy and conservation, and water issues. The Update will be distributed after each Friday of the Session. We may also send out additional Action Alerts during the Session as issues arise that need quick action. We hope each Update

issue will prepare you to contact your legislators with your opinions and concerns!

ACTION ALERT!

Take action to help save water for Great Salt Lake by urging Appropriations Committee members to support the Governor's recommendations for \$519 million in state and federal funds for water projects and programs.

Contact members of the NRAE Appropriations to oppose the \$500,000 "Hunter Nation" funding request. This is Sportsmen for Fish & Wildlife and Don Peay's latest assault on wolves, echoing past multi-million dollar, unaccounted for efforts to keep wolves out of Utah and off the threatened and endangered species list. This time the plan is rile up hunters in three Upper Midwest states to pressure Congress to delist wolves there so they can be shot at will here.

News of Week Three (Week # 3)

Utah Water Week wasn't – at least it seemed that way. SCR 6 to encourage reaching a target elevation of 4198' for GSL failed to pass committee, some good water bills (e.g. HBs 137, 217, 272, 286) didn't see action, HB Utah Water Ways escaped a contentious committee hearing, and there were no big, splashy new budget requests revealed. Mostly it felt like feel-good P.R.

Some bills we support (SB118, 119m 147) advanced, but so did bad bills SB 107 and SB 113.

Budget News

Appropriations Committees will conclude their voting on new money recommendations in Week 4. NRAE Appropriations meets Monday and will take its final vote on its priorities on Wednesday. This past week they heard a couple of dozen requests for hundreds of millions of dollars, most of which won't be funded. Aside from the funding requests recommended by the Governor, here's a list of a few of our other priorities: Antelope Island SP Visitors Center (\$15 m.), Utah Lake Improvements (\$10 m.), Water Rights Measurement and Data Enhancements (\$5 m.), Drinking Water Emergency Grants (\$750,000), Air and Water Innovation Grants (\$10 m.), Mobile Air Quality Observation System (\$1.5 m.), GSL Dust Monitoring (\$72,000).
