LEGISLATIVE UPDATE

2020 General Legislative Session

Issue #5

March 1, 2020

Welcome to the 2020 Legislative Update

This issue includes highlights of week five, what we can expect in the week ahead, and information for protecting wildlife and the environment. Please direct any questions or comments to Steve Erickson: erickson.steve1@comcast.net.

About the Legislative Update

The Legislative Update is made possible by the **Utah Audubon** Council and contributing organizations. Each Update provides bill and budget item descriptions and status updates throughout the Session, as well as important Session dates and key committees. For the most up-to-date information and the names and contact information for all legislators, check the Legislature's website at www.le.utah.gov. The Legislative Update focuses on legislative information pertaining to wildlife, sensitive and invasive species, public lands, state parks, SITLA land management, energy development, renewable energy and conservation, and water issues. The Update will be distributed after each Friday of the Session. We may also send out additional Action Alerts during the Session as issues arise that need quick action. We hope each Update

issue will prepare you to call, email or tweet your legislators with your opinions and concerns!

ACTION ALERT!

The Inland Port Modifications bill - HB 347 (Rep. Gibson), is now awaiting action on the House floor, probably Monday but early in the week for sure. We're working to get it amended as it moves forward, but it will remain a bill for a project and process we can't support.

Oppose HB 347!

HB 233, the Depleted Uranium-funded Natural Resources Legacy Fund, will be debated and voted on in the Senate this week. Urge legislators to pass the Fund without the DE funding source- and avoid making this their legacy!

Lastly, contact your legislators to urge them to fund bills and budgets to Clear the Air!

News of Week Five (Week # 5)

HB 328 requiring a study of diverting Green River water to the Wasatch Front had a rough ride in House NRAE on Friday, failing on a first vote but passing on a reconsideration. It goes to the floor with a \$200k price tag. HCR 19 – Opposing the Introduction of Wolves, predictably passed the House and will get similar treatment in the Senate. It won't deter wolves on our doorstep from moving in sooner than we think. Also HB 125, the predator removal bill, passed as expected - without a sunset provision. HB 296 – Limitations on Landowner Liability, passed the House and appears certain to be enacted.

New: HB 396 would set in motion a \$50 m. investment by Rocky Mt. Power in new electric vehicle recharging stations throughout the state. SCR 12 acknowledges the risks of climate change and growing global carbon emissions and calls on Utah's congressional delegation to consider backing carbon dividends legislation. Maybe not a great leap forward for our Legislature, but worth supporting!

Budget News

The budget negotiations are down to the last few time-pressured days. Decisions will be made this week on almost all of the allocations so that the EAC Chairs and staff and Republican leadership can finalize the budget. Caucus meetings are bound to be interesting, as members in both

parties and chambers prioritize their funding requests. EAC meets Friday after 4 PM where we may get some insights into where the chips will fall.

A number of our budget priorities have sorted themselves out already and are locked into the budget. Top of the list is the funding for the Great Salt Lake Coordinator position. But there's much uncertainty about the funding for a number of air quality initiatives that haven't been baked into the appropriations process and will rely on prioritization by the caucuses (R's) this week. Clean air bills are likely to fall well short of the Governor's goal of \$100 m., but let's work and hope for a happy surprise ending.

No new is good news, sometimes. We haven't heard any further rumors about bonding for transportation and big water projects, Nor about last minute money for Big Game Forever and its profitable anti-wolf work. A case of over-confidence? Not on our end – we'll watch closely.

What's Ahead

Both chambers will be on the floor from 10:00-12:00 and 2:00-4:00 daily. Standing Committees meet 8-10 and 2-4 each day. There will be caucus lunches each day beginning at 12:30 for the rest of the Session. No word so far on if and when the House will “wipe the board”, sending bills on the 3rd Reading Calendar back to Rules to be prioritized for debate. Hang on to your hat!
